This one's for the record  
This one's for the books  
This one's for the better  
I put that bitch through hell  
I put that bitch through college  
I sent that bitch a check  
She went  
Forgot about it  
I know

Southside in the country I know  
I learned so much about me fucking with ya  
We can't even fuck the same when your cousin stay with ya  
You won't pull out the whips and chains cause your mother ashamed  
Of you

Bring the cuffs out  
Bring the strap out  
Bring the tail out  
Explain the awkward shit between us baby girl we here now  
Fuck you til I fell out  
You independent baby  
You pay for your own hair now  
You pay for your own shit  
Aware you a grown bitch  
You know I love grown shit  
And watch them people in your pockets baby they on shit  
And never strive to be like me cause bae I don't own shit

(Don't say goodbye )

What's your name my dear?  
Wanna torture me tonight?  
You've got the right idea

Tie me down from my chest to my back  
Sacrifice me like a lamb  
Drag me with you to hell

You the only one that see me sweet  
All these other niggas see me tweak  
You don't pay attention to my tweets  
Kiss me when I wake up from my sleep  
Tender lovin karrah when we creep  
I don't fuck with niggas, why I'm only with the crete  
Half these niggas pussy, see me forget how to speak  
I could never be a side bitch, that ain't for me  
I'm just way too unique  
I'm just way too hands on  
Real bitch, I damn near slapped this bitch in public  
Forgot I'm almost on  
Boy I'm famous now  
Can't never leave the house unarmed  
He in love in me  
He tat my name on his arm  
Tat my name on his neck  
Tat my name like chrisean

He want a piece of me, he can't  
There's more fish in the pond  
Look at these girls, you would've thought I had a magic wand  
It take a special type of nigga to balance what I'm on  
Karrahbooo, I'm solo steppin, I can't do this on my own  
Not the 2

Let me know when you get off, babe  
All that trappin paid off, babe  
We just hit for ten  
And I can't pretend  
I'm not spending it on you  
You need a new best friend  
My bed is free  
You can come and find out why  
Woah, woah

What's your name, my dear?  
Wanna torture me tonight?  
You've got the right idea

Tie me down from my chest to my back  
Sacrifice me like a lamb  
Drag me with you to hell
