skaiwater

Get fly like a motherfucker
U dickride like a motherfucker 'til there's nothing left
Still ride round with my lil brother
I know these niggas won't kill for me
Hit me if you got a pill fa me
Damn

Smoking without you
Ur brother I roll up
Girl you got a shift soon
I can't wait 'til it's over
Can we go to the next room
I'm expecting a check soon
Can we go to ya bedroom
Meet me in my rover

Tasting my problems
Smelling my baggage
And you can't be round it
I made a promise
That I'd keep you far away
And still I'm falling for ya
Following ya shadow
Head up underwater
You make me feel worthless
But I still fucking love you

Call me when that bitch not around
I'm finding it hard to keep my head up
You must think I'm a fucking clown

Woul'da sold my soul to Satan
Woul'da paid to see you naked
Post my ex with another nigga
My dm was goin' brazy
You've been on my mind lately
I've been feeling blonde lately
Shoot the club up with no hoodie on
We could have a brown baby

I'm on the east side
Making b sides
Goin' home call a lift
Come fuck with me mama
Get some me time
Dome and some dick
On ya free time
Take a free ride with the one
You not a freak hun
Just a good time
You the one

Tasting my problems
Smelling my baggage
And you can't be round it
I made a promise
That I'd keep you far away

And still I'm falling for ya
Following ya shadow
Head up underwater
You make me feel worthless
But I still fucking love you

Call me when that bitch not around
I'm finding it hard to keep my head up
You must think I'm a fucking clown
