

# Divide Us

Skarlett Riot

We are the brave  
We are the saviours  
We live to protect and stand as one  
You won't bring us down  
You won't get inside us  
We will light up this battle ground  
This wall will cave in  
We'll never give in  
We'll rise to the top and you'll stay down  
I won't surrender  
To your commands  
I won't turn back, I won't turn back

Woah, you won't divide us  
Let it go now, come and try and shoot us down  
Woah, you won't divide us  
Let it go now, you won't divide us  
You won't divide us  
You won't divide us  
You won't divide us

I've met people like you before  
Putting your lives above us  
It's not a game, this see through pane  
Don't gamble what you can't afford  
The pressure is crawling in  
Building to climax  
I won't take much more of this  
I won't take much more of this  
You're so full of shit  
I'm so sick of it

Woah, you won't divide us  
Let it go now, come and try and shoot us down  
Woah, you won't divide us  
Let it go now, you won't divide us

You won't divide us  
Come and try and shoot us down  
You won't divide us  
Yeah...

Woah, you won't divide us  
Let it go now, come and try and shoot us down  
Woah, you won't divide us  
Let it go now, you won't divide us  
You won't divide us  
You won't divide us  
You won't divide us  
You won't divide us
