

# Limits

Skarlett Riot

Look around, so alone right now  
There's no one here, to defend you now  
Only got yourself to blame  
For the mess you've made  
(For the mess you've made)

Don't fake that innocence  
Won't be blamed for your negligence  
Your narcissistic, egotistic ways

You better fear me now  
I'll burn your words down to the ground  
I've had enough of being pushed to the limit, limit  
I'm at boiling point  
And I will take back what is mine  
You will not manipulate me anymore  
Where did this all go wrong

Where did this all go wrong  
I've seen it all before  
This bitter taste  
Inside my mouth  
I just can't get it out

I can't be in this madness  
I won't be played along  
Get me out this damn hell house  
I can't stand this anymore

You better fear me now  
I'll burn your words down to the ground  
I've had enough of being pushed to the limit, limit  
I'm at boiling point  
And I will take back what is mine  
You will not manipulate me anymore  
Where did this all go wrong  
Where did this all go wrong

I've seen this all before  
I've seen this all before

(Don't push me the limit)  
Don't push me  
Don't push me  
To the limit  
To the limit  
Don't push me to the limit

You better fear me now  
I'll burn your words down to the ground  
I've had enough of being pushed to the limit, limit  
I'm at boiling point  
And I will take back what is mine  
You will not manipulate me anymore  
Where did this all go wrong (I've seen this all before)  
Where did this all go wrong (I've seen this all before)

Don't push me to the limit
