

Scream At Me

Skarlett Riot

You make me sick, you bring the darkest out of me
I bite my tongue every time that I hear your name
You slither round my neck until I suffocate
You're a bitter mistake

Scream at me, I wanna see you burn
Scream at me, you'll get what you deserve
Scream, scream, it never felt so good
I never felt so good alone

You waited in the dark and stalked me like your prey
You attacked to push at my weakest moves
Now I'm in control and you won't control me
I am not your slave

Scream at me, I wanna see you burn
Scream at me, you'll get what you deserve
Scream, scream, it never felt so good
I never felt so good
Scream at me, I wanna see you burn
Scream at me, you'll get what you deserve
Scream, scream, it never felt so good
I never felt so good alone

I wanna see you burn, you'll get what you deserve
I wanna see you burn, you'll get what you deserve
I wanna see you burn, you'll get what you deserve
I wanna see you burn, you'll get what you deserve
I wanna see you burn, you'll get what you deserve
I wanna see you burn, you'll get what you deserve
I wanna see you burn, you'll get what you deserve

Scream at me, I wanna see you burn
Scream at me, you'll get what you deserve
Scream, scream, it never felt so good
I never felt so good
Scream at me, I wanna see you burn
Scream at me, you'll get what you deserve
Scream, scream, it never felt so good
I never felt so good alone
