## Deadbolt

Here come the cops Hand me my sword I got nowhere to run I'm afraid of the whole

Who gave you the tip? Was it someone I know? Ain't it always the rats Who bring the pigs to your door?

Who's got the fear Of your little boy club? Better watch what you say Better come with your all

Turning the deadbolt The chain's on the door Now Knock when you know that I'm home

Won't you give me one more try? Gimme one more try Or kiss my friends goodbye Unless you gimme one more try

Let me borrow your car Take it down to the shore Lemme crash at your house Is your mother still home?

Won't you give me a taste 'Til the heat cools down? I just need enough To get me around

Crawling out the window Breaking down the door It's a long fall From the sixth floor

Turning the deadbolt The chain's on the door Now Knock when you know that I'm home

Won't you give me one more try? Gimme one more try Or kiss my friends goodbye Unless you gimme one more try
