

Born To Love You

Skeeter Davis

Born to love you, born to love you
Born to love you till I die.

My life was empty, so blue and alone
Then you've put your hand in mine and I knew why I was born.

Born to love you, born to love you
Born to share your smiles and tears
Born to be near if you need me dear
Born to love you till I die.

I used to wonder what life held in store
Then you held me in your arms and now I wonder no more.

Born to love you, born to love you
Born to share your smiles and tears
Born to be near if you need me dear
Born to love you till I die...
