

Don't Let It Happen To Us

Skeeter Davis

Sweethearts all over town are letting each other down
Don't let it happen to us
Sweethearts who once were true are looking for someone
new
Don't let it happen to us.

We had to quarrel just like sweethearts often do
Instead of breaking up let's kiss and then start making
up
For sweethearts should never part or they'll break each
other's heart
Don't let it happen to us.

Sweethearts should never part or they'll break each
other's heart
Don't let it happen to us...
