Skeeter Davis

Get out your junkshop banjo get out your walkin' shoes Fall in with the band you can play too You don't have to be real good now you don't have to know the songs Fall in with the band and play along.

Maybe we can get the people to singin' songs that they never sung

Get to them one by one I hope they listen
Maybe if we keep 'em busy singin' they won't have time to
hate

Maybe we can get 'em straight if they listen.

March out across the desert march out across the sea Fall in with the band and come with me
You don't have to sign no papers you don't have to pay no dues

Fall in with the band you just can't lose.

Maybe we can get the people to singin' songs that they never sung

Get to them one by one I hope they listen
Maybe if we keep 'em busy singin' they won't have time to
hate

Maybe we can get 'em straight if they listen.
