

# I Look Up

Skeeter Davis

I take myself to places where we didn't go  
I surround myself with faces that we didn't know  
I think this way I'll leave our past behind  
Then I look up and see you on my mind.

I tell my friends that now I'm really over you  
I say I'll find a new love but I never do  
For even with somebody else I find  
I look up and see you on my mind.

I see you on my mind so real I can feel you  
And I reach up to hold you close so you will stay  
But then I realize that I just see your memory  
And a dream of love that just won't go away.

I make my heart a promise that I'll soon forget  
But if there is a way I haven't found it yet  
And even after death I'll bet I'll find  
I'll look up and see you on my mind.

Yes, I'll look up and see you on my mind...
