Let's Make Love Not War

Skeeter Davis

Come on baby let's make love not war

Come on baby what have we fighting for

Don't let a silly fight keep us apart tonight

Come on baby let's make love not war.

Now everytime we fight you know it makes me so sad But don't say things you know gonna make me mad Let's hold each other tight and everything will be all right Come on baby let's make love not war.

We fall over silly things that always makes me cry And babe when I hurt you tears me up inside Let's take the time to count to ten and we'll be laughin' again Come on baby let's make love not war.

Come on baby let's make love not war Come on baby what have we fighting for?...
