Summer Sunshine

Skeeter Davis

Love to feel the summer sunshine
Love to hear the summer rain
Warm red kisses every one is mine
Now that you are back again

Glad the winter's finally over
Don't know where the sun has been
I can sleep at night 'cause baby I know
That's startin' all, all over again

Well, I know the hurtin's over
I know the waitin's through
It's been lonely in the meantime
I know it's been worth it all waitin' for you

Love to feel the summer sunshine
Love to hear the summer rain
Warm red kisses every one is mine
Now that you are back again

Well, I know the hurtin's over
I know the waitin's through
It's been lonely in the meantime
I know it's been worth it all waitin' for you

Love to feel the summer sunshine
Love to hear the summer rain
Warm red kisses every one is mine
Now that you are back again...
