

You Taught Me Everything That I Know

Skeeter Davis

You taught me to kiss so it would thrill you you showed me how
to hold you so close
You told me just how to love you you taught me everything that
I know
I wore my hair the way you liked it you even tipped out my clot
hes
Yes I did everything just to please you you taught me everythin
g that I know
I was like rain in your hands you made me love you so
Now you tell me you don't want me you say just forget and let y
ou go
Well I don't know a thing about forgetting all I've learned is
how to love you so
And if you leave how can I learn to forget you you taught me ev
erything that I know
