You Taught Me Everything That I Know

Skeeter Davis

You taught me to kiss so it would thrill you you showed me how to hold you so close

You told me just how to love you you taught me everything that I know

I wore my hair the way you liked it you even tipped out my clot hes

Yes I did everything just to please you you taught me everythin q that I know

I was like rain in your hands you made me love you so Now you tell me you don't want me you say just forget and let y ou go

Well I don't know a thing about forgetting all I've learned is how to love you so

And if you leave how can I learn to forget you you taught me ev erything that I know
