

# Batten Down The Hatches

Skegss

Batten down the hatches  
That storm cloud's coming right at us  
We better get set alright  
'Cause we could be in for a wild night  
I love that I get to see your face  
Every time the lightning flashes  
I can't wait for the next strike to happen  
There's a bottle of grappa  
How about I go grab it?  
Me and you, you and I  
Let's unwind through this sea of fishing line

I don't understand how I got your hand  
I don't even care, I don't need to know the reason  
Let's not ruin this evening  
I don't wanna brag 'cause I'll feel like a dag  
I hope you wrote me back, I don't need to know the meaning  
Don't wanna ruin this evening

Batten down the hatches  
That storm cloud's coming right at us  
We better get set alright  
'Cause we could be in for a wild night  
There's a bottle of grappa  
How about I go grab it?  
I'll get two glasses  
And we can unwind through this sea of fishing line

I don't understand how I got your hand  
I don't even care, I don't need to know the reason  
Let's not ruin this evening  
I don't wanna brag 'cause I'll feel like a dag
