

No one wants to be around the same person every day
And if they do that's ok but that person is not me
It's not that if I stay we can't get along
It's that if I go it will make us more strong

I was watching the Bush TV and that's when it hit me
I need to go away and wait until you miss me
I was watching the Bush TV and that's when it hit me
I need to go away and wait until you miss me

Wait until you miss me
Wait until you miss me

It's not the kind of thing that many understand
It's the kind of thing you have to feel firsthand
Sometimes I don't I really don't wanna go
But it's coming back to you, that lets me know its worth it

I was watching the Bush TV and that's when it hit me
I need to go away and wait until you miss me
I was watching the Bush TV and that's when it hit me
I need to go away and wait until you miss me

Wait until you miss me
Wait until you miss me
Wait until you miss me
Wait until you miss me

I was watching the Bush TV and that's when it hit me
I need to go away and wait until you miss me
