

Fade Away

Skegss

I wish I could see things through your eyes
Do you see what I see or is it black and white?
You don't complicate things bounce around your day
And if you were to leave I would rather you stay

What's yours is mine
Let's fade away
Let's run while we have our minds
Let's fade away
What's yours is mine
Let's fade away
Let's run while we have our minds
Fade

Sometimes I feel nothing but hurt in my chest
Almost thinking more is less
But deep right down I know that it's not true
Because I know that I have you

What's yours is mine
Let's fade away
Let's run while we have our minds
Fade away
What's yours is mine
Let's fade away
Let's run while we have our minds
Fade
