

High Beaming

Skegss

Thinking of all I've done
Waiting for what's to come
I've never felt anything like this before
Even when my light turned off
Always kept pressing on
Hoping that there might be something more

High beaming your big headlights
Lighting up the road for me
I love the way your positivity shines
Putting my wild mind at ease
High beaming your big headlights
Lightening the load for me
I love the way your positivity shines
Putting my wild mind at ease

I swear the ocean breathes, breathes
Breathes, breathes

Angel pressing on my lip
Giving me that needed fix
Showing me how to be free
Floating out in the open sea
I could tread here all night

High beaming your big headlights
Lighting up the road for me
I love the way your positivity shines
Putting my wild mind at ease
High beaming your big headlights
Lightening the load for me
I love the way your positivity shines
Putting my wild mind at ease

I swear the ocean breathes, breathes
Breathes, breathes

No, life is ever easy
No, life is ever easy
No, life is ever easy
No, life is ever easy

High beaming your big headlights
Lighting up the road for me
I love the way your positivity shines
Putting my wild mind at ease
High beaming your big headlights
Lightening the load for me
I love the way your positivity shines
I love the way your positivity shines
Putting my wild mind at ease
