

Paradise

Skegss

Day, daydreaming today
My thoughts are drifting away
Daydreaming today
My thoughts are drifting away

You got it made
It's all going your way
But you still want to escape
To a different place

I've got paradise in my palms
I've got paradise in my palms
I've got you right here in my arms
And that's paradise in my palms

Hey what are you scheming today
You plan on leaving today
Why don't you just stay
And make the most of this place

Are you craving some change
Well those thoughts will fade
You're just in a state
Daydreaming today

I've got paradise in my palms
I've got paradise in my palms
I've got you right here in my arms
And that's paradise in my palms

I've got paradise in my palms
I've got paradise in my palms
I've got you right here in my arms
And that's paradise in my palms
