

Spaceman

Skegss

Will I sleep tonight
Walk from under the street lights
It's a blue sky tonight
Blue sky tonight

The whole sky it is lit up
I am so far from spaceman
I am so far from spaceman

What is this worldly place
I'm treading on its face
It's a blue sky tonight
Blue sky tonight

I am so far from spaceman
I am so far from spaceman
I am so far from spaceman
I am so far from spaceman

Week to week, weak and strong
Feeling bleak, put my blinkers on
Sometimes time can seem so long
Every right turn can end up wrong
We meet and greet with a shoulder shrug
I just need a hug, yeah that is all

I am so far from spaceman
I am so far from spaceman
I am so far from spaceman
I am so far from spaceman
From space

I am
Maybe I won't shut my eyes
I am
So I can see all that's in the skies
It's a blue sky tonight
Blue sky tonight
