

Stranger Days

Skegss

Stranger days will keep on coming
My brain's changed but it's still running
I get phased and in the end it's nothing
Stranger times will keep on rolling
My hands are always riding born into a storm
It's a lifetime of thunder and lightning
So many things that I can't do, but I can try
A girl can dream and so can a boy
And may your dreams never die

Well I'm gonna try do good, swear that I'm gonna try
From now on and for the rest of my life
I'm gonna power on, I'm gonna enjoy the highs
And the lows will come and go
And may your dreams never die

(Die
Die)

Stranger days will keep on coming
My brain's changed but it's still running
I get phased and in the end it's nothing
Stranger times will keep on rolling
My hands are getting swollen, born into a storm
It's a lifetime, it is worth knowing
So many things that I can't do, but I can try
A girl can dream and so can a boy
And may your dreams never die

Well, I'm gonna try do good, swear that I'm gonna try
From now on and for the rest of my life
