Beyond Cremation

Skeletal Remains

A psychotic breakdown has lead to their demise
For reasons unknown the family of five burns alive
A subconscious state of mind
He is now awakened of his slumber
To the burning stench of corpses
Asphyxiation begins to settle in

His Mind trapped in a, world of confusion
Wondering how this tragedy ocurred
Slowly losing his mind

Their flesh is no longer visible
Hearing the horrid screams of his family
Being cremated to ashes

As he sees his wife melting away
And his decendants flesh falling apart
As they gradually deform and contorn

The only escape that came to my mind
Was to be with my family once again
A petrol gallon through my body
I am filled, now I burn from within

A psychotic breakdown has lead to their demise
For reasons unknown the family of five burns alive

The only escape that came to my mind
Was to be with my family once again
A petrol gallon through my body
I am filled, now I burn from within
