

Mortal Decimation

Skeletal Remains

Dreams of the cataclysm decimating all mortals
Artificial intelligence created by man
My perception of what's to come is left to be ignored
Decimating all mortals dreams of the cataclysm

Nuclear wastelands will plaster the earth
No one left to hear me out of my prevision
Synthetic intelligence soon to rule our existence

Superior intelligence
Dominating life forms
Newly found luminosity
Deadly acts of tragedy
Annihilating mortal life
Our future gone in a flash

Smoke has begun to enshroud our skies
What is left now destined to die
The lands who generations once roamed upon
Now blood and ashes it has become
Decimation of all mortals
A nation now under the A.I's command
Cyber genetic beings to over throw our existence

Nuclear wastelands will cover the earth
No one left to hear me out of my prevision
Synthetic intelligence now to rule our existence

Superior intelligence
Dominating life forms
Newly found luminosity
Deadly acts of tragedy
Annihilating mortal life
Our future gone in a flash
