

## Parasitic Horrors

### Skeletal Remains

Monstrous entities  
Feasters of the stars relentlessly wait  
Nightmares incarnate  
Faintest echoes piercing deep within your mind

All devouring parasitic horrors  
Physical manifestations of the void  
Warped into a state of blistering hatred

Driven by an insatiable hunger  
Transforming worlds they infest  
Sought to corrupt all inhabitants  
Crawling chaos trails of death a lifeless universe  
Ruptured fabric of creation  
Undoing what we have strived  
For ages to achieve  
Monstrous entities  
Feasters of the stars relentlessly wait  
Nightmares incarnate  
Faintest echoes piercing deep within your mind

All devouring parasitic horrors physical manifestations  
Of the void warped into a state of blistering hatred

All devouring parasitic horrors  
Physical manifestations of the void  
Warped into a state of blistering hatred

Transforming worlds they infest  
Sought to corrupt all inhabitants  
Agonizing pain neither living nor dying
