

Sub-Zero Termination

Skeletal Remains

Stuck in this place
Seems life has come to an end
This hell made of ice
Is destroying me now how will I mend?

Paralyzed my body lays
This freezing pain intensifies
Paralyzed my body is stiff
Sub zero termination of life

Wishing death would take me now
Free me from this frozen hell
Life ends short yet pain's so long
How can this be? existence soon to be gone

Frozen my body has become
Screaming shatters me internally

Trying to survive
This arctic fatality

Paralyzed my body lays
This freezing pain intensifies
Paralyzed my body is stiff
Sub zero termination of life

Frigid these last breathes begin to come slow
Numbing out my body no longer feels cold
Feel death is near blinding my eyes closed shut
Preserved history is left within this corpse

Paralyzed my body lays
This freezing pain intensifies
Paralyzed my body is stiff
Sub zero termination of life
