

Unmerciful

Skeletal Remains

Amongst your fallen sons, I stand tall
Their ultimate sacrifice means nothing to me
Your kingdom crumbled by my hand
Without honor, without mercy

One by one
Victims of this savagery
Torn apart by the swing of my axe
Pain and fear
Cast upon my enemy
The thrill of the kill
The indulgence of war

I am driven by unbounded hate
For I am your end
The end of your legacy
Your dismemberment served by my blade
Your daughters defiled
Your throne set ablaze

Dead

Dead is your king of lies
His head is our mounted prize
Onward
Soldiers

We conquer land and sea
We decimate our enemy
You fear our name

Our strength unrivaled, we march
Onward
Soldiers

No ruler of men to serve
A brutal death is what you deserve
Monarchy doomed

Amongst your fallen sons, I stand tall
Their ultimate sacrifice means nothing to me
Your kingdom crumbled by my hand
Showing no mercy
I claim victory

One by one
Victims of this savagery
Torn apart by the swing of my axe
Pain and fear
Cast upon my enemy
The thrill of the kill
The indulgence of war

I am driven by unbounded hate
For I am your end
The end of your legacy
Your dismemberment served by my blade

Your daughters defiled
Your throne set ablaze

Coward
Your death leaves no name
Disgraced you fall
Brought down by my deepened blade
Hatred
I hail to no man
Your crown of waste falling
From your weakened hand

Disgraced you fall
Brought down by my deepened blade

Your crown of waste falling
From your weakened hand

Struck down with no remorse
Your pain is my reward
This land you rule no more
I am the hate of war

Pain and fear
Cast upon my enemy
The thrill of the kill
The indulgence of war
Your dismemberment served by my blade
I am The Unmerciful
You'll remember my name
