Skeme

Kilo wrapped 'round my neck  
Wanted 'round for a check  
Hundred bets nigga bet  
Money, power and respect  
Model bitches with me wet  
Fuck her 'till she out of breath  
New niggas thinking you gangsta  
I fuck around and buy ya set  
Still ballin' ain't shit changed  
Sitting court side at a Knick game  
Did the right thing no Spike Lee  
You don't know another nigga like me  
Girl to the e to the s to the t to the c  
Cartier cover my eyes  
They wanna know what the fuck else could I want  
That revenue be my reply

They don't even make 'em like me now days  
They don't even make 'em like me now days  
I done lost count of all the money I make

Bought a new coupe, had to tell a bad bitch with me work  
They don't even make 'em like me now days (work)

BVSs on my wrist  
Crooked, too legit to quit  
High as a sky scraper screaming, "Hi, haters" crack a seal pint and sip  
Hope you niggas ain't forget  
I'm the nigga with the hits  
Ball on these niggas and bitches I feel like Michael Jordan back in '96 (ball out)  
Call me Skeme, call me crooked, call me anything that you want to but broke  
Stuntin' homie, money on me looking like I'm meeting papi at the boat  
Type of shit that make them alphabet boys look at you like you still selling dope  
Its billions of niggas out here in these streets and still I'm the realist ya know
