Ever since I touched my first rock, it was destiny  
Had a couple unclean spots like leprosy

I was in the sauna (Ugh)  
Thinkin' 'bout how I left the whoosh with Shauna  
Gonna cut her off when I call her (Brr)  
Cah she wasn't gettin' rid of weight like a hoarder  
Caught me on the lack near the border  
I was in the middle of the ocean with no Bora Bora  
The slick bitch turned informer  
No, you ain't servin' that man, there's suttin' in his aura  
Pull up in a beatdown hyena  
That was just to discharge firearms and burn it like reefer  
No, you can't take it to the cleaner  
Must be tryna get man nicked, that's Cannon, no beater  
Dash a yute's mum and I'll beat her  
Slapit got nine at 18, it coulda been peaker (Free him up)  
Now we gotta talk through a speaker  
And they took GB twice, so it hurt a little deeper (Free him up)  
Runnin' from a bird, I'm tryna fly away  
I don't even smoke so I feel it in my chest from a mile away  
They don't even care if you die today  
Ambi-ambidextrous, still I threw it in the microwave (Whip, whip, whip)

I don't, I don't give a fuck what they say to you (I don't care)  
18, I had a brown line like Bakerloo  
Ever since I touched my first rock, it was destiny  
Had a couple unclean spots like leprosy (Ugh)  
Now I'm runnin' up the elasticity  
My bitch from Sicily, my kicks from Italy (Italy)  
I want all the smoke like a chimney  
Niggas tryna catch me in the field like I'm Jiminy

Look, I was raised in the Brix with the short end of the stick  
Little slab nose and night leather gloves just for the grip  
All that weed smoke made me trip, now I'm sober, takin' trips  
I gotta concentrate, can't contemplate goin' back to the bin  
Still I'm buyin' out the cling from the corner shop  
Break corner's off of whole ones on my lonesome just so I could see some quids  
I know all 'bout takin' risks  
All I know is makin' flips  
They could never be this side  
If they be savs, I'm talkin' chips  
Half moon, I'm talkin' clipse  
Lookin' like solar eclipse  
They ain't never seen that shit  
So let me wheel it back a bit  
To the days before we made the K  
Just blaze all on the strip  
Better behave or you'll get shaved  
But where were they? They weren't on piss  
Flip the script, I'll make them flip  
Loose got nine, they take the piss  
But they gotta rate the bits  
Like how they gotta rate the strip  
Put in work while I'm equipped

They just wanna jump on [?] like they on ships  
Tell them "Take it off the hip, let it rip" (Bang)  
All my spots dirty, no Clearisil  
T-line certi, I'm just clearin' sales  
White girl swimmin' with the fish like she's Ariel  
I was on the wing, TV, needed a aerial  
In the trap, make the cat need a bed

I don't, I don't give a fuck what they say to you (I don't care)

I was on rap, rap  
Tell a man "Back that"  
[?] rental, [?] hatchback  
Dawg, you ain't kiddin' me  
Told me that you're feelin' me  
Absence is killin' me  
Free [?]
