You lot, you two, recognise that you are one of the best drill artists, in the UK. So, you gotta a lot of influence; you got a lot of young people looking up to you. Whether you like it or not. What's your opinion on this, Skeng do, yeah?

See where we come from, that's our reality, you understand me?

Yeah

That's what we wake up to. What we talk about, that's us, you understand? It's not to lie to the public and tell them, "Oh, yeah, this is what you should be doing". We're not trying to influence anyone to do anything. We're just sharing, like, our story to whoever sees it, do you understand? Like, I wouldn't be doing this if I was just tryna, do it for fun-and that's just me. Like I'm actually trying to get out and better my life, you understand?

And man like me, that doesn't rap, and sits down and watches my chat. He ain't gonna think, "Yeah, I'm gonna do what he's saying". He's gonna be like, "Wow, he's doing a lot with the rapping-maybe I should start rapping". Know what I mean, bro? That's a different kind of inspiration
