Skengdo x AM

Baby how you fall for a tug are you silly  
Your friends gonna cat when they hear that you're with me  
Cah I got issues, I got these issues, my heart's on E but it's cool when I'm  
with you  
So how you gonna lean on me, I swore you would never get a piece from me  
Cah I got issues, I got these issues, my heart's on E but it's cool when I'm  
with you

Couldn't even love me if you tried  
If we're talking good sex then you know I provide  
You ain't gotta put in work I just hit it from the side  
My eyes look back when you're gripping on my thighs  
If I ever said I wouldn't hurt you then I lied  
I'm a scumbag, sittin like Usher in his prime  
I would be in jail if a buddy was in crimes, the way I pull you back and I p  
ress it like a nine  
Have you ever tekke wood from a driller  
Bet she gonna melt when I put sittin in her  
I'm a straight-neck grabber, pum pum filler  
Whisper in my ear when I slide sittin in her  
So go to your friends I'm a killer  
Cah your ting got duppy like Jackson on Thriller  
No and that's a no I just say it my nigga like I'm pulling on the trigger

Move don done better  
Holidays, amazing weather  
Could've been us but you broke my trust now it's fuck you forever  
Dropping you went light like feather  
My new one don't give me stress that's amazing sex that she lays on my chest  
Round one done, let me go for the spliff then  
After I'm done we can finish the rest, yes  
Pulling your hair Imma fuck you the best  
Smoke choking you down, you might take your last breath  
She likes it like that, sputting all down her leg  
Prefer that, good sex, leave your bedroom a mess  
Lost my heart I think it won't come back  
But it's gotta come back one day that's facts  
How you gonna lean on me, you'll never get a piece of me trust issues is pea

Told you, don't fuck with your ex  
But I know you still liked him, you done fucked up, I move on quick  
Love or wap was the only thing  
Tell me why I would go look [?]  
I plan for the future, you're not in that  
I'll hit from the side, I'll hit from the back  
My new one's good good gyal time flies

So don't be ashamed if you drip a little

Q tips make it run like Chicken Little  
And if it's love or hate then I'm in the middle  
I could put it in your ribs, you ain't tryna giggle  
Yeah I got manners, so I'm holding doors  
I'm just tryna make you wet, when it rains it pours  
And if we're stepping with the tugs than we're breaking laws  
We're breaking jaws on the mains of course

If you met my tugs and I gave you all my guns, would you do right for me?  
Tell me baby  
If the feds hold you in consent and you stand before a judge, would you rat  
on me?  
Or confide in me
