Baby I'm feeling your ting and liking it but I can't say that I love you  
And I know you said you would hold it down, but honestly babe I can't trust you

It's not just you I find it hard to say that I got trust issues  
I don't know why, I just feel this way, its not hard you can tell that I'm confused

Now she gonna leave me alone cah she know I can't leave her alone
