

# Alpha Omega

Skept

Lex Luger  
Yeah, yeah

I'm the alpha and the omega, the star player  
You're a liar, big capper, a pump faker  
Seen you around, but you never involved, a spectator  
Can't you see the Spirit of Ecstasy? This ain't no Bentayga (Huh?)  
Nah, how we livin'? I'm never quittin' (Woo)  
V 'Bach whippin', Rollie ain't tickin'  
818 sippin', sauce spillin'  
See different colors when the shrooms kick in, born sinnin'  
See who's your brother when they start talking prison  
Big Smoke, I don't fight, my diamonds hittin'  
Came with a chopper, he ain't a DJ, but my guy's spinnin'  
Are you dizzy? He ain't got no ID, he's got bine with him  
If I told my brother that it's for L, that means I'm ridin' with him

I just turned an L into a lesson, that's another win  
Keep the balance, yeah, that's how you keep the money comin' in  
I checked my balance, and it looked like a bag of onion rings  
Check the cameras, better be Lionel Messi if you're running in (Greaze)  
Gotta protect my energy 'cause I'm really him  
Hyperactive, self-medicating soon as I leave the gym  
When you take me for a nice guy, then you meet my evil twin  
Too many times I've seen 'em jump in the deep end, and they can't even swim

Hotter than a oven, grabba crushed in so my spliff bussin'  
Slick talking, gotta hide the smoke when the kids walk in  
Six figures, now I gotta bank with Coutts, I'm big bossing (Rich)  
No, I ain't from Milwaukee, but I'm a mill' walking  
Lex Luger (Greaze) on the beat (Bow), this shit's knocking  
Bad bit', told me that she don't twerk, now she's TikToken' (How?)  
I see the back from the front like she's criss-crossin' (Sex)  
Needed a ride, said I can't get her the keys, now we're lip-lockin'  
Mains first, and we got matchin' watches if you're wrist watchin' (Tick-tock)  
Anytime you see my name, know that's a hit droppin' (Hit drop)  
And I just keep sayin', like F1, there ain't no pit stoppin' (Woo)  
Pulled up to the venue, jumped in the stage and I got that shit rockin'

I just turned an L into a lesson, that's another win
