Skepta

Nine millimetre  
With the dutty Luger  
With me big revolver  
Them never see me dark

Can't chat to me about the high road  
Back then I was moving psycho  
Rolling ten man strong, minimum seven-up like Fido Dido  
Scotland Green, collect my giro  
My whole crew wanted by the 5-0  
Cooking up food  
Bubbles floating on top of the water like a lilo  
5 to 9, 9 to 5  
Anytime, any day, Scotty was live  
I never had no time to look pretty  
Two sets of clothes like Jekyll and Hyde  
Selling drugs in the baitest ride  
One cat buying food off me from this window  
Another cat buying food off President T on the drivers' side  
Dark

Them never see me dark, nine millimetre  
Them never see me dark, with the dutty Luger  
Them never see me dark, with me big revolver  
Them never see me dark, them never see me dark  
Them never see me dark, nine millimetre  
Them never see me dark, with the dutty Luger  
Them never see me dark, with me big revolver  
Them never see me dark, them never see me dark

It's six o'clock in the morning  
I flew out, flew down the road, flew back then flew in  
My mum knows what I'm doing  
And deep down, I know she's screwing  
I fell asleep with 13 scores in my mouth  
Had a dream about chicken and chips  
Like an eedyat, I started chewing  
Woke up, then I started spewing  
Thinking when is all this gonna end?  
I had to open them up then wrap them again  
I've been on the road so if the beat needs road bars, it's nothing I'll strap them again  
I've got nothing to prove I'm certified, you can't school me, I've been there  
That's why when you walk in the dance all the skengman go to, I'm in there  
Dark

Them never see me dark, nine millimetre  
Them never see me dark, with the dutty Luger  
Them never see me dark, with me big revolver  
Them never see me dark, them never see me dark  
Them never see me dark, nine millimetre  
Them never see me dark, with the dutty Luger  
Them never see me dark, with me big revolver  
Them never see me dark, them never see me dark

They said I was better before

Because I used to chat a lot of grease before  
Used to tell 'em what happened when my gun squeezed before  
I never said "thank you" or "please" before  
Didn't chat about making Ps  
Didn't chat about Boy Better Know tees before, before, before  
I bun a lot of trees before  
But now I've quit smoking  
So now it's all good, Skepta don't smoke no more  
Money making, I ain't broke no more  
Picking up, shotting and reloading, even though I ain't selling no coke no m  
ore  
No marijuana, no pill no more  
Never get booked for a bill no more  
Don't get it twisted and think cause I'm doing this music that I ain't real  
no more
