

# Demons

Skepta

(Supreme)

(Beam me up Scotty)

She ain't seen a demon, she just told me that she'll pray for me  
Spend like fifty eight on sixty eight, get from A to B  
If I do this time, she a rider, she'll wait for me  
All this white and all these whips is fucking reverse slavery  
Touring with some killers, burner up on deck, that's safety, G  
Boring, she got lip fillers, you suck my dick like a super freak  
20K in the strip club, I made it rain again  
Side bitch upset with me 'cause I fucked her favourite friend

Yo, lyrical niggas on tired beats  
I ain't here for that, turn them off (Forget that)  
Me and LB in the pool in Ibiza with six gyal, panties off (It's lit)  
Book a flight, you know I'm banking my weed, I ain't calling a plug  
Niggas ain't as cool us  
Killy with me, call your bluff  
Topless at the poolside, who needs a six pack when I'm in all this ice?  
Fully spit on what I want, might spit in your face like, "Call this grime"  
Chip's just cool, he's not a goon, that's facts, but I'll lick you with the  
violent rhymes  
And if I ever, ever need a g- I'm calling Bando Baby 29

I still pray at night, keep my demons away

Pussy, it's fashion week  
Every week I stay on fleek  
Sitting in front row seats at Louis V with hella steez  
White tee fit me nice, I think I'ma need ten of these  
Say they want old Skeppy, oh, they must've want hella greaze  
Feeling like I did a twenty five in another life  
That's a big bird, now I gotta fly  
Jump in the Wraith and I touch the sky  
Made a milli singing lullabies  
Met the gang once, now she love the guys  
Asked me what's my real name  
I just kissed my teeth, then I cut my eye

Saint Laurent, heard it's safe in Hell  
Gelato bricks through the Daily Mail  
Percocet 'cause it saved me still  
Ecstasy so she's a freak, she love the thrill  
In the trap where the cats got rabies still

I smoke the pack but I save the pill  
That's codeine, yeah, I know it's sealed  
Who the fuck made A rap? (Who?)  
I was in Dubai, scarf on my head, drip down like a Arab  
Eight out of ten, any less, then it's straight back  
Think I'ma die off lean, I know I shouldn't say that  
Stop saying you'll ride for me, I know that's straight cap
