

## Mastermind

Skepta

You're there every time I close my eyes  
Dancing in the shadows, playing with the light  
I call it mastermind (sexy)  
Do it to me  
Inside my head  
Every time I breathe, in (ay)  
Every time I breathe, in (ay)  
Every time I, breathe in

Paralyzed on this green, now I feel like a garden gnome  
Suffering from cannabis psychosis, I'm in a crazy zone  
I just called the police and I shouted Solo's home  
Blame that on the 22, 000 voices in my millenium dome (mental)  
Celebrity ladies, calling me daily, but I don't answer the phone  
She thinks I'm gonna buy her a diamond, she better go to Sierra Leone  
I'll be sitting at home, drinking this Patrón until I get a kidney stone  
M.O.B. 'til I D.I.E., these bitches can suck my bone (icy)

You're there every time I close my eyes  
Dancing in the shadows, playing with the light  
I call it mastermind (sexy)  
Do it to me  
Inside my head  
Every time I breathe, in (ay)  
Every time I breathe, in (ay)  
Every time I, breathe in

One sheet of the Rizla is all I need  
Break off a little chip of cigarette and mix it all up with the weed (mmm)  
Now I can't remember what we're smoking, is it the OG Kush or the cheese?  
All I know is it feels like the room's spinning round at phenomenal speed (mental)  
When we talk pussies don't answer back cause we're some rhetorical Gs  
I've got niggas on standby waiting to make somebody bleed (bo bo bo)  
Man try take me for a lemon, I'm a tell them I dare you to squeeze  
Next time you see me and my gang, man won't be wearing Boy Better Know tees

You're there every time I close my eyes  
Dancing in the shadows, playing with the light

I call it mastermind (sexy)  
Do it to me  
Inside my head  
Every time I breathe, in (ay)  
Every time I breathe, in (ay)  
Every time I, breathe in
