

# No Security

Skept

No I don't worry  
I tell you  
I'm a man who believes that I died 20 years ago  
And I live like a man who is dead already  
I have no fear whatsoever of anybody or anything

We don't need no security  
Stones in my jewellery, what can they do to me?  
You murder me I will live for eternity  
If I survive then I'm comin' for you personally (Damn son! Where'd you find this?)  
You heard of me  
We don't need no security  
Stones in my jewellery, what can they do to me?  
You murder me I will live for eternity  
If I survive then I'm comin' for you personally

Down the fucking drain  
Fake celebrities I will not entertain  
No similarities definitely not the same  
Their insecurities got jealousy on the brain  
There to go to war with me then my people bring pain  
And I can do the story mode beginner or insane  
Shotty for the back blocks or a spinner for the mains  
You're lookin' at your reflection you hate what you became  
That selfish energy a cranberry stain  
Sitting inside my house with a candle and a flame  
Working voodoo on you pussies trying to throw faeces on my name  
I saw the bigger picture put em all in my frame  
To see they're very weak these guys are super lame  
I see you pushing weights oh now you're doing gains  
But before the creatine you were tucking in all your chains  
See them at the fashion shows never see them on the train  
I keep the voodoo with me I suggest you do the same

We don't need no security  
Stones in my jewellery, what can they do to me?  
You murder me I will live for eternity  
If I survive then I'm comin' for you personally  
You heard of me  
We don't need no security  
Stones in my jewellery, what can they do to me?  
You murder me I will live for eternity  
If I survive then I'm comin' for you personally
