

Went from a nuttin to a something  
Now I'm getting money with my brothers and my cousins  
Went from a nuttin to a something  
Now I'm getting money with my brothers and my cousins  
Selling out shows, getting these O's  
I be selling out shows, getting these O's  
I be selling out shows, getting these O's  
I be selling out shows, getting these O's

They say one thing about music  
When it hits you feel no pain  
But if I make this beat and sing  
Something's gonna get stuck in your brain  
Haters better get an umbrella  
Cause when I'm in the place I make it rain  
50 diamonds in my pinky, 1000 diamonds in my chains  
It's a public service announcement  
Pass me the mic let me do my speech  
My mandem know if there's enough to go round  
Everybody's gonna get one each  
I know you saw us since [?]  
Bottles of champagne on the beach  
Had to fly back cause I got 10 hours of community service  
I don't wanna breach  
God gave me a mouth as long as it's working  
I'm gonna keep making noise  
Cause I'm on the grime scene  
Getting black man paper, yeah I got the voice  
I could've been dead or in jail  
But deep down i know I made the right choice  
I never thought I would see so many numbers  
On the right side of the decimal point  
Major

Went from a nuttin to a something

Selling out shows, getting these O's  
I be selling out shows, getting these O's  
I be selling out shows, getting these O's  
I be selling out shows, getting these O's

I be selling out shows, getting these O's  
Now I'm in a place in the world where  
Mandem can't afford to go  
I told em how to make it fast  
But it's like dem man wanna make it slow  
I do it, I didn't wanna do it  
Now they wanna try do it but I'm telling them no  
Even when I'm in my grave I be getting that money  
Hustling in peace  
But while I'm alive I be getting that money in north  
That money in east  
That money in west, that money in south  
Got me grinning my teeth  
Feel like smoking again so I called Footsie

And got me a bag of grease  
Look at all these ladies emergency breaking  
So I can feel their bumpers  
I'm trynna work out at the iPhone's manager  
To remember all these numbers  
I think back when I was young  
I used to dream about wearing versace jumpers  
Now I'm sitting on a tour bus looking  
At the que to my show and it's humongous  
Skeptat!!!
