

Smoke In Your Eyes

Skept

Show me how to focus
Take me somewhere loud and amplified
Whatever you're smokin'
I want it before I lose my mind
Don't let me control it
But leave me a distance for the ride
'Cause when your love don't fight
Smoke gets in your eyes

Smoke gets in your eyes
Will you help me? My head
Before I lose my mind
Baby, I can't see straight
But I know where to lie

Nothin' like, get started
Nothin' quite like consciously resignin'
I want but you be smokin'
Just wanted to see where I was blind
No ceiling or face trollers
What a rush and what a high
'Cause when your love don't fight
Smoke gets in your eyes

Show me how to focus (Everybody)
Take me somewhere loud and amplified
