

# We Begin Things

Skept

Out on the streets in the 90's  
Never had enough money for an ice cream  
Niggas on the other side wanna fight me  
All the chicks in the hood wanna wife me  
Black chicks, white chicks and the lighties  
On the stairs in the flats getting grimey  
See a nigga in my hood looking icy  
Quick jack move, now the feds wanna find me

Ho, yeah, yo Skep, dee give me another R  
They never see it coming, they're having a laugh  
And now our team's got more niggas with more class  
So we need to keep the scene on par  
So listen when we say we're in a bit of demand  
Been here already living, we don't need to get a pass  
We don't talk the dream, we take part  
How ya mean, how ya mean, we're taking it too far

Yeah, Mega, we're taking it too far  
Forget a sixteen, I kill it in two bars  
Forget all the money, forget all the new cars  
You put that all aside and you're looking at two stars  
Oh shit, I pull out my camera  
Tell man "hold this", two middle fingers up to the feds  
Tell him that it's Dwayne and Joseph  
You're fucking with underdog psychosis, ey!

Ah, if you wanna go deeper than this  
Nah, they ain't getting no deeper than this  
Got North, East, West and South eating  
Boy Better Know and So Solid: we begin things

We begin things, we begin things  
We begin things, we begin things

True, say the label, that's madness  
Yeah Skeppy, they wanna draw for the madness  
I'm a free, how can they say that I'm still on the gangland ting  
Surrounded by young G's that bang them thing  
I'm a cool breeze, I'm relaxing  
Surrounded by who's into big banking  
Yeah, I was thug spitting then all packed in  
Then recovered the third year like "oh that's him"  
"Oh that's him, oh that's him  
He's the new in thing, oh that's a win"  
We came for the pound, my boys are all in  
And the girls wanna shout like "we's a ballin'"  
I know you're pretty though  
But if I can't figure you out please you gotta go  
Please, I'm skanking with all my G's

I pull up in the all black T  
My niggas and pretty women is all I see  
In the club we celebrating, pop champagne  
So I told her to step steady, the floor might be  
A little slippery, but we never came here to model  
So tell the waiter to bring ten more bottles

I drink that, jump in the car  
Put the pedal to the metal, full throttle like woah  
Love for my G's on the road like woah  
N17 post code like woah  
See me on the telly and the video like woah  
I keep telling them that I'm gonna blow like woah  
Don't understand why they wanna hate on a G  
Man I've been killing it since double 0 three  
Now they wanna be in the same position as me  
And I'm like...
