

## What Do You Mean?

Skepta

Nozzle is still in my jeans  
When I fell asleep, I was still in my jeans  
Then I had a one gyal lickin' me clean  
She wan eat man like Idi Amin  
What do you mean? I come for the cream  
I made some mistakes that I gotta redeem  
You put me in position that I don't wanna be in  
We all make mistakes, I'm a human being  
North Korean, Kim Jong-un when I spray the machine  
You're on the other side if you ain't on my team

Ya get blacklisted if ya hate on my team  
Fam, I say what I mean  
I keep my demons close  
Late night I speak to the Ghost  
Get high, fell asleep in my clothes  
Animal instinct, sex, money, murder  
I fear nobody, keep something on me  
'Cause I'm better safe than sorry  
I'm a top boy like Sulli' with a six-figure hobby  
You're still on the road, better be gettin' that belly  
Kickin' off doors, better give it some welly  
I came in the game, ran it like an athlete  
Got a big money scheme, all my brothers had to eat  
Thought I was a scrub sittin' in the back seat  
I was countin' my money, making sure it's complete  
They can't compete, there ain't no competition  
I take what I want, you get what you were given  
They're callin' me a rapper, man I think I'm a magician  
I didn't wanna kill 'em but these niggas never listen

As soon as I wake up, I be chasin' my dreams  
All we do is win and we ain't changin' the teams  
I still creep through the hood  
Pull up on my brother just to see if he's good  
See them with the gang, they be giving me looks  
See him on his ones, I can see that he's shook  
Mad 'cause I made it  
New whip lookin' like a spaceship  
You're lookin' like you're stuck inside The Matrix  
I could teach you how to hustle, how to save it  
When the money talks, I can translate it  
I'm the go-getter  
G'd up with my feet up, it's no pressure  
They make threats but they never put their hands on me  
They know better

You will get pepper, hot like Coachella  
You're not clever, you're comin' unstuck  
I was up north, I was gettin' nuff love  
Back down south, tryna make a young buck  
And I'll be still goin' when the sun comes up  
(Greeze)
