

Hell or High Water

Skid Row

Trip the wires down around my feet
Setting fires up and down the street
Calling shotgun with no one at the wheel
Hiding from the boogeyman because I broke the deal

Hangman is coming and he's killing on command
Can't hide away. It's too late to pray
Don't burn the devil when you're feeding from his hand
From his hand

Don't need someone to save me
I'll be there come hell or high water
Can't break the will he gave me
Come the hell or high-yi
Don't need someone to save me
I'll be there come hell or high water
Can't break the will he gave me
Come the hell or high-yi-yo

Face the demons that turn against your soul
Junkie heathens swallowing you whole
Pulling stitches from wounds that never bled
Running from the maniac that lives inside your head

The day is dying and the sky is caving in
Can't turn your back or fade to black
The preacher's crying and he's burning for his sins
For his sins

Don't need someone to save me
I'll be there come hell or high water
Can't break the will he gave me
Come the hell or high-yi
Don't need someone to save me
I'll be there come hell or high water
Can't break the will he gave me
Come the hell or high-yi-yo

We look inside to see our battle scars
As we hide from who we really are
Swim against the river underneath the tide
We're all just floating bodies filling up inside

The day is dying and the sky is caving in
Can't turn your back or fade to black
Don't burn the devil when you're feeding from his hand
From his hand
No

Don't need someone to save me
I'll be there come hell or high water
Can't break the will he gave me
Come the hell or high-yi
Don't need someone to save me
I'll be there come hell or high water
Can't break the will he gave me
Come the hell or high-yi-yo

Don't need someone to save me
I'll be there come hell or high water
Can't break the will he gave me
Come the hell or high-yi
Don't need someone to save me
I'll be there come hell or high water
Can't break the will he gave me
Come the hell or high-yi-yo
