

Let's Go

Skid Row

There's nothing else alive to me
All I want is victory
Every second flashes on my brain

Adrenaline is turning red
The powers going to my head
The light is steady burning in my veins

I put my heavy foot down to the floor
Living on the line and wanting more
I'm one with my machine
Bleeding gasoline
Kick the tires, light the fires
Let's go!

Let seven thousand horses loose
Grab your gear and hit the juice
Then take a shot at making history

It's time to go, it's do or die
A kamikaze lullaby
Is in my suicidal memory

I put my heavy foot down to the floor
Living on the line and wanting more
I'm one with my machine
Bleeding gasoline
Kick the tires, light the fires
Let's go!
