

Not Dead Yet

Skid Row

Count down to the minute
Time keeps tickin' away
Born to lose and dying to win
Is not the way I play

Get the high that you're lookin for
While the world goes straight to hell
Die young is what they're sayin'
But it's too soon to tell

Not dead yet
Don't throw dirt on an open casket
Something that I said
You've written me off, but I know I'm not dead yet

Some pray for the sinners
Something's going 'round
I'll fight or go down swingin'
'Til they stick me in the ground

Get the high that you're going after
While the world goes straight to hell
Live fast is what I'm hearin'
But it's too soon to tell

Not dead yet
You don't throw dirt on an open casket
Something that I said
Ready to go. Ready but not dead yet
Not dead yet
Don't throw dirt on an open casket
Something that I said
You've written me off, but I know I'm not dead yet

Go

Get the high that you're looking for
While the world goes straight to hell
Live fast is what they're sayin'
But it's too soon to tell

Not dead yet
Don't throw dirt on an open casket
Something that I said
Ready to go. Ready but not dead yet
Not dead yet
You don't throw dirt on an open casket
Something that I said
You've written me off, but I know I'm not dead yet

But you sure give it a good try
