

# Resurrected

Skid Row

Brothers and sisters  
Listen to me say  
The world's on fire  
But not the end of days

It's not religion  
I'm not the voodoo child  
Don't bless my heart or curse my soul  
Just lead me to the wild

Judge and jury in suits and power ties  
Stone cold and living out their lies

We're not playing dead  
That's all in their head  
Now's the time to see  
We're resurrected

No one can bring us down  
Or push us underground  
We're back where we should be  
We're resurrected

Got to remember  
To look them in the eye  
And watch their smile crack  
As they bleed the system dry

Drunk with power without a soul to save  
I know that you know that we know what they know  
Crossing fingers that I fall on my face  
But they're still jumping in my grave

We're not playing dead  
That's all in their head  
Now's the time to see  
We're resurrected

No one can bring us down  
Or push us underground  
We're back where we should be  
We're resurrected

We are resurrected

We're resurrected, resurrected, resurrected  
We are resurrected

We're not playing dead  
That's all in their head  
Now's the time to see  
We're resurrected

No one can bring us down  
Or push us underground  
We're back where we should be  
We're resurrected

We're not playing dead  
That's all in their head  
Now's the time to see  
We're resurrected

No one can bring us down  
Or push us underground  
We're back where we should be  
We're resurrected

We are resurrected
