

# Shout Your Freedom

Skillet

You are a prisoner  
Of what they wanted you to be  
Now you're a minister  
Of a brand new reality  
Don't you want to get away  
Shut down all the voices  
All the white noises  
Drowning there in deeper waves  
I gotta get away

They think they own you but they don't know  
You've broken free, better on your own  
You're on top of the world  
At the top of your lungs  
Come on, and shout your freedom  
Victory is what has come alive inside  
When they've been gone  
Shout it out to the world  
At the top of your lungs  
Come on, and shout your freedom

And now you're flying high  
You won't be held down by regrets  
You're not just getting by  
You're a warrior and proud of it  
You don't have to be afraid  
Here hold out your voices  
Shut out all the noises  
You don't have to be ashamed  
So never run away

They think they own you but they don't know  
You've broken free, better on your own  
You're on top of the world  
At the top of your lungs  
Come on, and shout your freedom  
Victory is what has come alive inside  
When they've been gone  
Shout it out to the world  
At the top of your lungs  
Come on, and shout your freedom

Victory is born  
You're never go back  
You're never going back  
Look what you've become  
You're flying higher  
'Cause you're a fighter

They think they own you but they don't know  
You've broken free, better on your own  
You're on top of the world  
At the top of your lungs  
Come on, and shout your freedom  
Victory is what has come alive inside  
When they've been gone  
Shout it out to the world

At the top of your lungs  
Come on, and shout your freedom
