

Standing in the Storm

Skillet

I still got some life in me
You can try to shake me
I still got some fight in me
But you can never break me, break me

I see the clouds around me start to darken
Like searching eyes of serpents always watching
Tell me I'm still breathin' (Breathin')
Tell me there's still feelin' (Feelin')
Resistance makes me stronger
It makes me stronger

Time for me to be defiant
'Cause I won't be silenced
When I suffer (Oh-oh oh-oh)
Slingin' shots to Goliath
Gonna call down fire
In rain and thunder (Oh-oh oh-oh)

I see the world around me start to darken
Resistance makes me stronger
So make me stronger (Stronger, stronger, stronger)
Whatever comes (Comes)

I'm standin' in the storm like never before
The pressure builds around me
Let the winds surround me

Whatever comes, I'm not givin' up
Fearless as a lion
Not afraid of dying

I still got some life in me
You can try to shake me
I still got some fight in me
But you can never break me

I'm standin' in the storm like never before
The pressure builds around me
Let the winds surround me

I'll stand in the storm (I still got some life in me)
I'll stand in the storm (I still got some fight in me) (Storm)

I feel the voices underneath me callin'
I sink into the graveyard of the fallen
Tell me that you hear 'em (Hear 'em)
Tell me you don't fear 'em (Fear 'em)
Resist a little longer
Death before dishonor

Nothin' left to be decided
'Cause I won't be quiet
When they threaten (Oh-oh oh-oh)
Through the hate and the violence
Got truth on my side and
Love's my weapon (Oh-oh oh-oh)

I feel the voices underneath me callin'
Resist a little longer
Death before dishonor (-honor, -honor, -honor)
Whatever comes (Comes)

I'm standin' in the storm like never before
