

## Highland Blood

Skiltron

Drums beat like mad  
Bagpipes sounding loud  
Once again our army is ready to fight

A new battle is waiting for us  
We can feel the clash getting close  
Led by the lion we march as one  
Side by side like before  
Bring on the war!

Highland blood! Blood of our heroes  
Highland blood! Calling for freedom  
Forever and ever the clans will stand

Highland blood! Blood of our heroes  
Highland blood! Crying for freedom  
Forever and ever until we die

Marching forward - defending our soil  
With bravery and courage inspiring the hordes  
No place for traitors - we shall prevail  
We are wielding our swords  
This is our call!

Highland blood! Blood of our heroes  
Highland blood! Calling for freedom  
Forever and ever the clans will stand

Highland blood! Blood of our heroes  
Highland blood! Crying for freedom  
Forever and ever until we die

Highland blood! Blood of our heroes  
Highland blood! Calling for freedom  
Forever and ever the clans will stand

Highland blood! Blood of our heroes  
Highland blood! Crying for freedom  
Forever and ever until we die
