

## The Taste of Victory

Skiltron

Now's the time to fight with honour  
On this glorious battlefield  
Will you die or will you join me?  
In the taste of victory!

I was born to walk along road  
Proving to myself i am worthy to exist  
Working hard for what i wanted  
What i've got is what i've earned

Now's the time to fight with honour  
On this glorious battlefield  
Will you die or will you join me?  
In the taste of victory!

There are plenty of those who envy me  
Many times they've tried to tear me down  
But i keep on marching forward  
Always loyal to what makes me strong

Now's the time to fight with honour  
On this glorious battlefield  
Will you die or will you join me?  
In the taste of victory!

Now's the time to fight with honour  
On this glorious battlefield  
Will you die or will you join me?  
In the taste of victory!

Now's the time to fight with honour  
On this glorious battlefield  
Will you die or will you join me?  
In the taste of victory!
