

# Through The Longest Way

Skiltron

We have to understand when we are young  
We always have to choose a way  
don't let them do it for you, don't be their puppet  
Some people can't think for themselves

Going right, thinking well  
Knowing and learning what it's providing  
Raise your head and look all around  
There's so much to go  
Through the longest way

I know that many times you want to leave it  
That is when you have to be strong  
And know: You have to face it now  
And don't get frightened  
don't wait until somebody comes

Everytime you find a brick  
don't let your arms fall down  
You will find that the truth is there  
Running through  
Through the longest way

So at the end, you ll be able to get  
Something that will not be stolen from you

Asking yourself if this life makes some sense  
I'm afraid you don't know  
My advice is to believe  
In the earth that gives what is here around  
For us all

There is someone who is going to try  
To take you with him as a slave  
don't believe lies and don't fall in the claws  
Of those who want your life  
cause they can't live by their own
