# If I Could

Skindred

I would erase you if I could

You've left us balling balling
Name calling all over the world
It seems like it's falling
I see a beautiful day
Stuck inside a cell where I cannot get away
We all have had enough
We've had it oh so rough
I cannot take no more
Let me go and leave me alone

In every way you broke me and it's not OK
In every way you're so wrong

You think you're so bad
But yeah you're no good
I would erase you if I could
I got you so wrong
So misunderstood
I would erase you if I could
If I could

Well in light of the things you've done recently
I'm gunna set an embargo against your country
Lying teefing hearts you're breaking
Everything you are forsaking
And dem der ting it no right right
You're trying to take away my life life
You better step up and fight fight
You're going on like a thief in the night

In every way you broke my heart it's not OK
In every way you're so wrong

You think you're so bad
But yeah you're no good
I would erase you if I could
I got you so wrong
So misunderstood
I would erase you if I could
If I could

If ah could ah
Should ah would ah
Should ah would ah could ah
Should ah would ah could ah

Should ah would ah could ah
Shouldn't have done what you did
Sitting on that dick was no accident
Should ah would ah could ah
Shouldn't have done what you did
You're trying to murder me to the maximum
I've got heart ache and sad ache
You ain't getting an invitation to my party
The things wha you ah do ah go make your heart stop

Go make your heart stop

You think you're so bad
But yeah you're no good
I would erase you if I could
I got you so wrong
So misunderstood
I would erase you if I could
If I...

You think you're so bad
But yeah you're no good
I would erase you if I could
I got you so wrong
So misunderstood
I would erase you if I could
If I could
If I could
I would erase you if I could
If I could
